Ruby - Rails - HTML5 - CSS3 - Sass - Javascript - JQuery - PostGres - MySQL - Git - Github

Profile

Creative full-stack web developer with a strong background in project management and customer relations. My passion for learning about technology opened me to the world of web development. I decided to take the leap into Bitmaker to solidify my knowledge gained through independent learning. As a recent graduate of Bitmaker Web Development Immersive with experience building full-stack web apps, I am now ready for new challenges and learning experiences.

Education

BITMAKER, TORONTO, ON - FULL-STACK WEB DEVELOPMENT IMMERSIVE, 2016

- Completed 9 week immersive (400+ hours) web development course.
- Used Github to manage apps while working both in a group and individually.

Projects

BEEP

Ruby on Rails, Javascript, HTML, CSS, Git

obscure-bastion-41307.herokuapp.com

- Built a web platform for sharing autonomous cars. Owners of vehicles can rent them out when not in use, passengers can make reservations through app.

SEAT YOURSELF

Ruby on Rails, HTML, CSS, Git

- Built restaurant seating app from ground up in a team. Designed to search restaurants by city, users can then search for desired restaurants by cuisine or restaurant name and then make reservations through app.

BROCK UNIVERSITY, ST. CATHARINES, ON – BACHELOR OF ARTS, MAJOR IN PSYCHOLOGY, 2009

Experience

SANDCASTLE ENERGY SYSTEMS ALLIANCE

ENERGY MANAGEMENT AND TECHNOLOGY TECHNICIAN

MISSISSAUGA, ON — 2016
