## Profile

Creative full-stack web developer with a strong background in project management and customer relations. My passion for learning about technology opened me to the world of web development. I decided to take the leap into General Assembly to solidify my knowledge gained through independent learning. As a recent graduate of General Assembly's Web Development Immersive program with experience building full-stack web apps, I am now ready for new challenges and learning experiences.

## Education

### GENERAL ASSEMBLY, TORONTO, ON - FULL-STACK WEB DEVELOPMENT IMMERSIVE, 2016

- Completed 9 week immersive (400+ hours) web development course.
- Used Github to manage apps while working both in a group and individually.

### Projects

#### BEEP

*Ruby on Rails, Javascript, HTML, CSS, Git*

[obscure-bastion-41307.herokuapp.com](https://obscure-bastion-41307.herokuapp.com)

- Built a web platform for sharing autonomous cars. Owners of vehicles can rent them out when not in use, passengers can make reservations through app.

#### SEAT YOURSELF

*Ruby on Rails, HTML, CSS, Git*

- Built restaurant seating app from ground up in a team. Designed to search restaurants by city, restaurant name, or cuisine and then make reservations through app.

### BROCK UNIVERSITY, ST. CATHARINES, ON – BACHELOR OF ARTS, MAJOR IN PSYCHOLOGY, 2009

## Experience

### FREELANCE WEB DEVELOPER

2016 - PRESENT

#### KOOSHOO LIFESTYLE INC

- Communicate regularly with client to ascertain what areas of app need to be fixed.
- Complete detailed programming tasks for front-end website as well as challenging back-end Shopify code.

### SANDCASTLE ENERGY SYSTEMS ALLIANCE

#### ENERGY MANAGEMENT AND TECHNOLOGY TECHNICIAN

MISSISSAUGA, ON — 2016

- Troubleshoot and resolved any service or technical problems with clients and installers.
- Responsible for coordinating and servicing hundreds of locations across Southern Ontario.

#### PROJECT MANAGER

VANCOUVER, BC — 2011-2015

- Managed entire province of BC implementing building automation systems as well as refrigeration and HVAC maintenance and service.
- During 2 years managing the province of BC installation productivity nearly doubled annually.
- Travelled across Canada leading teams of contractors to complete installations.

#### ENERGY MANAGEMENT

MISSISSAUGA, ON — 2007-2011

- Managed over a million dollars annually in company inventory.
- Regularly liaised with clients and contractors to ensure excellent customer service and satisfaction.
